14 FEB 1955

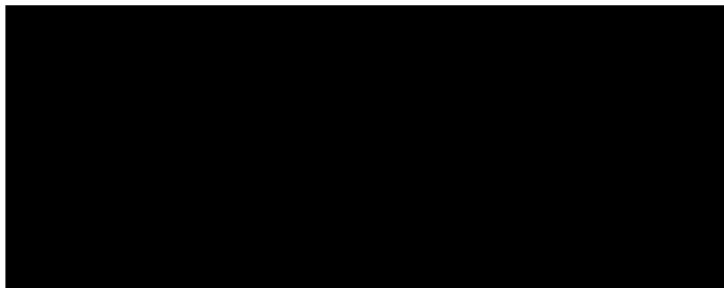

Col. L. K. White
Deputy Director (Support)
226 Administration Building

Dear Col. White:

I have considered at length your proposal of Friday, February 11, relative to Agency Support Planning. Since there are still many unresolved problems in the purely logistical planning field of the Logistics Office, I feel it my bounden duty to complete successfully the commitments I have made to the Chief of Logistics. The solution of these problems will have a beneficial effect upon the entire support planning system.

I feel that I can do my greatest work for the Agency in this field during the short period of my service, rather than as a staff officer of your office. I am, therefore, constrained to decline the great honor you offered me Friday.

Be assured that my Staff and I shall give your Planning Staff the fullest cooperation in the days ahead of your new heavy responsibilities in the complete support of Agency activities.
